

RAMBIHARI PATEL

Bhopal, Madhya Pradesh | +91-9630139459 | rambiharipatel175@gmail.com
LinkedIn | GitHub | Portfolio | LeetCode | HackerRank

PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience building responsive full-stack and AI-powered web applications using React.js, JavaScript, Node.js, Express.js, REST APIs, SQL, MongoDB, and Generative AI. Experienced in developing user-focused interfaces, integrating APIs, working with databases, deploying applications, and solving programming problems using Data Structures and Algorithms. Strong foundation in software development, DBMS, OOP, and problem solving.

EDUCATION

Sagar Institute of Research & Technology - Excellence (SIRTE), Bhopal <i>B.Tech in Computer Science Engineering</i>	2023 – 2027 CGPA: 7.62/10
Govt. Higher Secondary School, Sarwai <i>Class XII – Science / MPBSE</i>	2023 74.4%
Govt. High School, Mahyaba <i>Class X / MPBSE</i>	2021 86%

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, SQL, HTML5, CSS3
Frontend: React.js, Vite, Tailwind CSS, Bootstrap, Responsive Web Design
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Databases: MySQL, MongoDB, SQLite
AI / GenAI: Generative AI, Google Gemini API, AI Integration, Web Speech API
Tools: Git, GitHub, Postman, VS Code, Vercel
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

AshaTriage AI <i>React.js, Vite, Google Gemini API, Web Speech API, LocalStorage</i>	2026
- Built an offline-first AI-powered clinical triage web application designed to assist ASHA workers in assessing symptoms and identifying potential emergency conditions in rural healthcare workflows. - Integrated Google Gemini API for AI-assisted triage and clinical report generation, with an offline rule-based engine for limited-connectivity environments. - Implemented voice-based interaction using Web Speech API with Hindi and Telugu support, along with emergency protocol guidance and patient assessment workflows. - Developed reusable React components, responsive layouts, client-side routing, and deployed the application on Vercel.	
AI Finance Tracker <i>React.js, JavaScript, Node.js, Express.js, MongoDB, REST API</i>	2026
- Developed a full-stack finance management application for tracking income, expenses, savings, budgets, and spending patterns through interactive dashboards. - Integrated AI-driven financial insights to analyze spending behavior and provide personalized recommendations. - Implemented frontend-backend integration, REST API handling, database management, responsive UI, and application deployment.	
StudentMart <i>React.js, JavaScript, Node.js, Express.js, MongoDB, REST API, JWT</i>	2026
- Developed a full-stack student-focused web application in a 4-member team using React.js, Node.js, Express.js, and MongoDB. - Implemented responsive UI, frontend-backend integration, REST APIs, database operations, and JWT-based authentication. - Worked on real-world web application architecture, component development, API integration, and collaborative development using Git.	

ACHIEVEMENTS

- Solved 300+ Data Structures and Algorithms problems across LeetCode, HackerRank, and NeetCode.
- Achieved 5-Star rating in SQL on HackerRank through SQL and database problem solving.
- Built and deployed multiple full-stack and AI-powered web applications using React.js, Node.js, Express.js, MongoDB, and Generative AI.

CERTIFICATIONS

NPTEL: Database Management System | The Joy of Computing using Python
Development: React.js Development | Node.js & Express.js Development
Database: MongoDB Fundamentals | SQL and Database Management
